Don't let the shortage and High Cost of fruit worry you, nor keep you and your family from having all you want and need.

If you haven't tried growing your own fruit, you'll be surprised at how easy it is.

All you need do is (1) select the varieties you like best, (2) plant the plants yourself or let us do it, (3) give them reasonable care, and (4) pick and eat the fruit.

Oak Park Nurseries, Leslie H. MacRobbie, Owner. Main nurseries and office at East Patchogue, Long Island. Telephone Patchogue 232.

**TERMS:** Cash, excepting established accounts, to which we will gladly extend 30 days credit, or longer where specific arrangements are made at the time of sale.

**PRICES** quoted cancel all previous quotations, are subject to change without notice, and to prior sale. Prices are F.O.B. East Patchogue nurseries. Delivery is extra at cost.

**SHIPMENT:** Please give explicit instructions. We ship by our own trucks, freight, express, and parcel post. Delivery with our own trucks expedites arrival and insures a minimum amount of handling.

**BALLING &** All fruit trees and berry plants are **BURLAPPING:** dug with bare roots at quoted prices unless otherwise listed. If a ball of earth is advisable or desired by the customer, there is an extra charge for it. See B&B Schedule in our general catalog.

**PACKING AND BOXING,** where necessary, is charged for at cost.

**PLANTING:** If labor is available at the time your order is to be delivered, we shall be glad to furnish experienced plantsmen to do the planting. Ask for the cost of this service.

In addition to our stock of fruit bearing trees and berry plants, we also grow a large and comprehensive stock of hardy ornamental evergreens, evergreen shrubs, shade and ornamental trees, shrubs, vines, and climbing roses. Visitors are always welcome to inspect our nurseries.

**CROSS POLLINATION** Varieties marked with an \* are generally self-unfruitful, but will bear if planted with a pollenizing variety — marked "P."

**SPRAYING AND FERTILIZING** A general home orchard spray, which is not "fool proof," but will do for most insects and diseases on fruit trees, berry plants, and vegetables:

Wettable Sulphur .....	5 lbs.
Lead Arsenate .....	2 lbs.
Rotenone .....	3 lbs.
Total .....	10 lbs.

Mix the 3 powdered chemicals with 100 gallons of water, or reduce in same proportion for smaller amounts of water. Apply four times yearly as follows: (1) Before blooming, (2) After blooming, (3) Memorial Day, and (4) Fourth of July.

Well-rotted horse or cow manure is the best fertilizer for all fruits. Use a heavy mulch in early spring and late fall.
